

Hillcrest

Helping people to live in the community

Detached House in Thorne One Bed Vacancy Supported Living for adults aged 18+

Based in the small market town of Thorne, South Yorkshire, Hillcrest is a detached property with four bedrooms. Hillcrest provides support for adults with learning disabilities and Autism Spectrum diagnoses.

We currently have a vacancy in the service ideally suited to an individual aged between 28 and 60 years old who would benefit from a quiet, homely environment. The service is ideal for an individual who requires either a limited or more intensive support package to live independently in the community.

The property has its own private garden and is in a residential location. The vacant bedroom is located on the first floor of the property and has shared access to a bathroom, kitchen, dining room and two living rooms.

Hillcrest is situated within walking distance of the town centre with its range of amenities including shops, cafes, a library, and medical facilities. Hillcrest also benefits from being in the same town as Autism Plus' day services – offering sensory workshops, woodwork activities and health and wellbeing sessions amongst others.

Autism Plus work across the North of England supporting adults and young people with autism, learning disabilities, mental health conditions and complex needs.
