

# Morrill Street, Hull

## Community Shared Supported Living Service

Autism Plus is in the process of developing a large shared living property. The property will be made up of a self-contained 'apartment' on the ground floor with its own front door and two first-floor bedrooms with private bathrooms. All individuals will have access to a variety of large communal spaces, and 24/7 support will be provided by staff who will be allocated a separate bedroom/office and shower room. Our new service will be able to offer person-centred care to individuals with Autism Spectrum Disorders, learning disabilities and/or associated mental health illnesses. The property is due to undergo a full renovation and will be finished to a high standard, we anticipate being able to welcome our first individual/s into their new home in early 2022.

Autism Plus would like the opportunity to work closely with individuals identified for the service to add personalised touches, such as choosing wall colours and room layouts.

The new service will provide 24/7 support, with waking night staff or sleep staff as required by the individuals. 1:1 hours will be allocated dependent upon the individual's needs, and we are looking to deliver a minimum of 35 hours per person, per week. Example costings can be supplied if required.

### Location

The new service is situated to the East of Hull city centre.

Holderness Road with its wealth of amenities and transport links is a short 2 minutes walk away.
